

ADOPTION EVALUATION

Our clinical psychologists are experienced in conducting psychological evaluations and are able to do this as part of the adoption process. We are accepting new patients and referrals for evaluations and are proud to provide this vital service.

A flat Fee of \$1200 per adoptive parent includes clinical interview by a psychologist, two psychological tests typically required by adoption agencies, optional review session, and copy of final evaluation report.

Please contact our office at (812) 479-1916 to discuss scheduling an initial appointment.
